Gov't announces new measures to revive virus-hit tourism sector

The government's economic priorities focus on underpinning the sectors most-affected by the COVID-19 pandemic, Prime Minister and Minister of Defence Omar Razzaz said on Monday, stressing that tourism has been hit hardest by the crisis both locally and globally. During a media event held at the Prime Ministry to announce the measures taken to support the tourism sector, Razzaz said that these new moves aim to complement previous measures to reduce current costs and provide the necessary liquidity. Stressing that challenges facing the tourism sector are “not due to internal measures”, Razzaz highlighted the global decline in this field and its role in the Kingdom's economy. Responding to a question on reopening the airports and border crossings, Razzaz said that the caution observed in this arena is linked to maintaining the Kingdom's “reassuring” epidemiological condition. The tourism sector, among others, “will not see a quick recovery”, he added, pointing out that Defence Orders No. 13 and No. 14 aim to protect the sector. Defence Order No. 13 concerns bank guarantees submitted by tourism offices and umrah and Hajj agencies and the possibility of refunding them during the current stage, which is witnessing financial liquidity problems, he said, noting that the amount of these guarantees exceeds JD30 million. Defence Order No. 14 includes a social security programme to protect the workers in the tourism sector.

Jordan receives medical aid from UAE

Jordan on Monday received medical supplies, including COVID-19 test kits, from the UAE, as part of the two countries' joint efforts to curb the spread of the pandemic. Royal Court Secretary General Mohammed Al Karaki and Charge d'Affaires of the UAE Embassy in Amman Fahed Otaibi attended the handover ceremony of the medical aid at Queen Alia International Airport, the Jordan News Agency, Petra, reported. Lauding the two countries' cooperation and coordination, Minister of State for Media Affairs Amjad Adaleh expressed gratitude for the medical assistance, noting that the aid will contribute in increasing the number of daily COVID-19 tests and halting the spread of the virus. The UAE has sent 12.4 tonnes of medical supplies to the Kingdom via air, a move that will serve more than 12,000 health workers, Petra added.
